WARRING DEMOCRATS.

Even the San Francisco Alta don't like it. It is Democratic to the backbone. Its Democracy comes of the breeding days when it was nearly lawful to go out gunning for Black Republicans, when Lincoln was the "usurper and tyrant," and the war a "nigger war." Yet the Alta cannot stomach all the inconsistencies of the Cali-

fornia Democracy. It says: The recent Democratic Convention indorsed the Federal Administration. Either that indorsement is sincere or it is not. * * * In the last hours of the Convention, when the attention of delegates had been withdrawn from its platform expressions, and after these had been acted on, a resolution in support of the spoils system was sorung, and the Chairman, in violation and defiance of the Convention's rule that all resolutions should go to the Committee on ll resolutions should go to the Committee or tesolutions without debate, permitted it to ome before the Convention, and declared in

It then recites that the Examiner is using the resolution as a prod to secure the removal of persons in places of trust under civil service rules, as in the Custom-house and Postoffice, and the assessment of other for political purposes, and adds that if the Collector and Postmaster should do as the Examiner desires them, each would be liable to be muleted in \$5,000 for every violation of the law. All this is very amusing. Here we have the two organs of the unterrified at sword's points over the folly of a Convention that could not see beyond the end of its nose, and had no mor care for consistency in its platform than for the last storm in Mars. According to the Examiner,

President Cleveland is to be warmly indorsed, yet Mr. Cleveland believes in civil service reform while the paper has but one slogan, "Turn the rascals out," meaning all Republicans in any Government employment whatever. Meanwhile the Alta exclaims:

Control of partisan Federal service is an element of party weakness and not of strength. A mighty change has swept the chords of public opinion. The people want servants and not masters in the public service. Measure weapons gentlemen; one o

you is right, but the Republican party does not propose that you shall much longer have the privilege of either defending or assailing a Democratic President. SOMETHING FOR FARMERS TO CON-

SIDER. The Democratic State Convention in dorsed, by specific resolution, the course of Senator Hearst, and expressed its high appreciation of the service rendered by him. This must be comforting to farmer of the valley. What was the service of Mr. Hearst? He was prominent only in two measures and was defeated in both.

He plunged his head into the middle of the oleomargarine tub of bull butter, and came very near defeating the all-important legislation to save the navigable rivers of the State from utter destruction. And all this the Democracy says it approves and highly appreciates. The farmers of the river lowlands who have been half-buried in slickens, and have seen the heritage of all the people, the great free highways, decline almost to unnavigable streams, will certainly appreciate this indorsement. Thanks to a merciful Providence by the labors of Senator Stanford and Congressman McKenna, George Hearst's little

game was defeated finally. The men of California whose capital locked up in the dairy interest, the farmer whose family labors to make good butter and market it-all these who have struggled for years against the encroach ment of bull butter under the guise of the milky kine, will appreciate this indorsement by the Democratic party. And it was an open-eyed indorsement. When the Democratic Convention at San Francisco, which peddled tickets of admission to its show, upon the streets for coin, resolved show, upon the streets for coin, resolved below Stockton present like difficulties.

"that we indorse the course of the Hon. The natural scour of the streams would be George Hearst in the United States Senate, and appreciate the timely service ren. dered by him to the Democratic party," it knew precisely what it was doing. It knew that but one Senator of the United the fiscal year, and only four feet of water States, not a Democrat, Riddleberger, voted was found in places which, two years ago, were dredged out to nine feet.

The passage of the bill was demanded by the entire dairy interest of the whole by the entire dairy interest of the whole able in the stoppage of that practice, the stoppage of that practice, the stoppage of the stoppage of the property of the great cities. The immense capital intense to the stoppage of the bill was demanded the stoppage of the bill was demanded the stoppage of the passage are factors which the great cities. The immense capital intense to the stoppage of the bill was demanded the stoppage of the bill was demanded the stoppage of the bill was demanded to stoppage of the bill was demanded the stoppage of the bill was demanded to be stoppaged to country. The bili passed by 37 ayes to way will be open for the gradual modifica-24 noes. Of the 37 ayes, 5 Senators were Democrats, and 32 Republicans. Of the work will require some years before satisfactory results can be expected, but with energetic action and strict execution of 24 noes, all but one were Democrats, and the law there can be no do lot George Hearst, of California, was of them. Mark the votes of the men who put themselves of record in favor of letting oleomargarine continue upon the market falsely representing itself as butter.

River Improvement. The report of the Government engine ngaged in the improvement of the Sacra tento and San Joaquin rivers and their tributaries, for the last fiscal year, is not al-together encouraging. CHICAGO, September 9th .- John Enright and Miss Ryan were married on Sunday night and went to keeping house at 430 Twenty-sixth street. On Monday night they gave a large reception, and after the uests had gone the bride and groom re-ired. The kitchen stove had a hot fire, and to cool it off Enright opened the stove doors and took off the lids. The husband of Mrs. Enright's sister called the next day but could not get in, and yesterday, his suspicions having been aroused at not hearing any noise in the rooms for two days, landlord Allison tried to force the door open. A powerful stench drove him back, and summoning the police, the door was burst in. As officer Maher rushed in a dense vol-ume of coal gas staggered him, and others had to pull him out. All the windows were broken, and after the gas had escaped the house was searched. The bride and groom were found dead in bed, their bodies swollen and frightfully bloated, with the skin as black as a coal. They bore but little semblance to human beings, and were ut-terly passed recognition. An investigation showed that the mortar in the chimney had oozed out from between the bricks, completely stopping up the flue, so that there was no draft whatever. Enright and Miss Ryan had been passionately devoted to each other for years. They were school-mates in Ireland. Enright came to Amer-ica four years ago and his sweetheart folowed two years later. They will be buried in the same grave.

The Brewers' Convention. NIAGARA FALLS, September 9th.—The losing session of the Brewers' Association Convention was enthusiastic. A commitconvention was enthusiastic. A committee of eleven was appointed to take into consideration the labor question and to report measures for the protection of employers and employes. Officers were elected, as follows: President, William A. Mills: Vice-Presidents, Henry Claussen, Jr., and Charles G. Slifel; Treasurer, J. C. G. Huppel: Segretary. Piches & Response of the weeks in San Francisco, who will appear for pel; Secretary, Richard Katzenmeyer. The next annual meeting will be held in Baltimore, on the second Wednesday in May.

The Beer Question. New York, September 9th.—The Republican managers are studying carefully the proceedings of the National Brewers' Convention at Niagara, and they say if the party in this State is to be put on an antibeer-saloon basis the influence of the brewwith the bull-butter men, and that every vote besides for oleomargarine was Demo-cratic.

Catholic Bishops and Home Rule. DUBLIN, September 9th.-A conference of Catholic Bishops at Maynooth adopted resolutions to day declaring that the Irish people appreciated Gladstone's efforts in behalf of Ireland, and that they still adere to their demand for home rule, and indignantly deny the Tory assertions that, if the Irish people were allowed to govern themselves in domestic affairs, the Catholic najority would abuse the power conferred on the Irish Parliament and harrass the Protestants of the country. The resoluions further declare that trouble and dis-order in both Ireland and Great Britain will not cease untill Ireland's right to administer her own laws is recognized. Walsh, Archbishop of Dublin; Cocker, Archbishop of Cashel; Macevilly, Archishop of Tuam, and 23 Bishops were present at the conference when the reso tions were adopted .

Concernle says: "The mercury rose steadily in On Tuesday the thermometer registered 85° there were many complaints of the heat and wise predictions of coming earth-quakes. Yesterday the heat was positively stifling, and towards noon the air was like the dry, heated atmosphere of the vapor room of a Turkish bath. Although business was not interrupted, the movements of the masses were much slower than usual and no shade was too slight but its shelter was eagerly sought. In 1880 on one occa-sion hotter weather was experienced in this city, and then it was but one degree hotter than yesterday.'

Tour of Inspection .- A party consisting of Government Engineer Hazard and United State Commissioner Johnston's private secretary, who is also Auditor of Government accounts—General Johnston, i will be recollected, started for the coast but was taken ill and had to turn back—accompanied by General Superintendent Fillmore, General Passenger and Ticket Agent Goodman, and other officials of the Southern Pacific Company, came up from San Francisco yesterday noon by special train, and went through to "the front" of the California and Oregon Railroad to in spect the work being done there.

RUNNING A WHEEL GAME.-Yesterday morning Peter Lewis was arrested at Agricultural Park by Deputy Constable Swift for gaming—running a "wheel of fortune." He was taken before Justice Post, where he was represented by W. A. Anderson and the case set for examination at i o'clock this morning. It is alleged in his favor that Judge Clark, several years ago, decided that this wheel device was not a banking game, prohibited by the statutes. Nevertheless, for several years it has no

company presented last night to a better house the comedy-drama "Sealed Instructions." It was admirably played, as are the dramas the troupe handles. To-night will be the last of the company here, when a double bill will be given, the three-act play "Broken Hearts," a piece said to be of profound and touching interest, and the sparkling one-act comedy "Old Love Let-For the matines to-morrow "Saints!

WITHOUT IRRIGATION .- A practical example of what growth can be obtained without irrigation upon the plain lands in Sacramento county, is to be seen at the vinecity, between the lower and upper Stockton roads. During the season of "hard times" there s usually plenty of work for the lawyers. Per coutra,, when times are good there is little litigation. If these propositions are correct, Sacramento should just now be enoying a season of great prosperity, for here is very little doing at the Court-house. There being no cases on the calendar, the Courts have nothing to work upon, while the attorneys are wailing because there are o cases to commence, and the ink is drying in the County Clerk's bottles.

Finer than Los Angeles Fruit.

The Penryn Fruit Company has recently been shipping fruit to Tucson, A. T., directly through the far-sounding fruit secion of California, and into their pre-empted market. If it were not for the high express charges our central California fruit-growers could monopolize that field, as will be seen by the following letter:

TUCSON, A. T., August 28, 1886.

Penryn Fruit Company: Inclosed we send our statement account of grapes sold. We were compelled to force them, and have done the best we could for you. You are too far from this market to do anything, as the express company takes it all. If you could get a cheap rate, you could do well, for your fruit is finer than any from Los Angeles county. NEW YORK, September 9th .- General Paine called on Lieutenant Henn yesterday morning. He proposed, after the interna-tional races, to keep the Mayflower in com-mission in Marblehead Bay until there he proposed to race the Galatea from Mar was somewhat taken aback at this bole hallenge, and asked time to consider matter. The news of General Paine's chall are divided in vacht club circles. it was the general opinion that a race across Massachusetts Bay in a gale of wind would be a much better test of the weath. erly qualities of the American and English champions than a race around Bermuda. One yachtsman said: "The English papers have been saying that the Galatea is mit that she is unrivalled among racing yachts for weatherly qualities. I don't be-lieve that any one believes that even the coasted Irex could sail with her in a gale. Now there is a chance of a race of the heroic kind, worthy of two great maritime

nations. I hope Lieutenant Henn will accept the challenge." It is well known that the inhabitants of nany Eastern nations shield themselves against infectious disorders by wearing Aromatic Gums on the pit of the stomach Their instincts are right, for strong permanent odors are antagonistic to the living germs which cause disease. For this reason Allcock's Porous Plasters, being composed of fragrant aromatic gums, are the best safeguard to wear on the pit of the stomach in Cholera time, or in localities where sewer gas and malaria are found. train yesterday morning Deputy Sheriff where sewer gas and malaria are found. ing the necessary sweetness to produce a good raisin, must necessarily come into vogue if we are to accomplish uniform and valuable results. How much sugar there should be in the juice of a Muscat grape, at the time it is picked, in order to make a good raisin, has not yet been satisfactorily determined, but this much ought to be apparent after a little reflection: In arying the raisins the juice becomes condensed, the watery part evaporates and a syrup of the watery part evaporates and a syrup of the synthesis and a syrup of the watery part evaporates and a syrup of the water water and the synthesis and a syrup of the water water and the synthesis and a syrup of the water water and the synthesis and synthesis and the syn the raisins the juice become condensed the watery part evapore es and a syrup of natural grape sage, remains. The less sugar there is, in the juice the drier the raisin will appear to be when it is thoroughly cured, owing to the absence of such side in the mightiest empires of this world. The more elevated an imal, man himself, the cause agriculture does not stop with the watery part evapore es and a syrup of natural grape sage, remains. The less sugar there is, in the juice the drier the raisin will appear to be when it is thoroughly cured, owing to the absence of such sugar, and the more likely it is to spoil when it encounters moist atmosphere, as it is known that condensed grape juice containing a very large percentage, say 70 or 80 per cent., of sugar will not ferment. All good raisins may therefore properly be called sugar cured, although they depend solely upon the natural sugar of their own juice. That peculiar juciness that is looked

Transportation and Markets,

Cheap and rapid transportation is of the utmost importance to those who are both producers and consumers. It cheapens all that he buys and consumers. It cheapens all that he buys and enhances the price of all he produces. The "LANGFORD COLONY" is most advantage, only shuated in this respect. It is between two railroads that both connect with steambasts that run from the Sacramento and San Joaquin points to the Golden Gate. This gives the cheapest freight and passenger rates for the distance on this Coast. The markets for all kinds of products are good. We leave there generally the history of this people; and suffice it to say, after passing the Jordan with the Ark of the Covenant, whose waters rolled back to let it pass, they planted in toat heathen land the laws of the Almighty. There was found the worship of Dagon and Bell; and by and by, through the influence of these laws, that people became one of the mightiest upon the earth, their land supporting a dense population of cultivated people. At last came the crowning act. There was erected the temple of the living God, upon whose altar His presence was manifested by the Shakina. That land was so thoroughly cultivated that it supported one of the most dense populations on earth. But by and by the grand catastrophe of all others was reached—when the Saviour was crucified on Calvary. And later still, the koman ploughshare passed over the foundations of their rubed temple. That hand had been the home of soldiers, warriors, prophets and wise men, and in the course of time there came again Expiting arts languished and perished away, when the Saracen and the barbarian overcan act doverthrew the existing civilizations. Then there arose a longing for a new land of promise. The first had been announced by prophets and inspiration; but the second came upon the sort of inspiration that springs from the longings of the human heart for something new where again maght be sown the seeds of refinement and progress, and in due time the New Worli was discovered. This seeking lead the adventurers and in due time the New Worli was discovered. This seeking lead the destinate persons. The Eapler Committee.
